VOL. XXII, No. 4 - April 1967 GRANT SUPPLEMENT No. 2

The Medical Library Assistance Act of 1965 (Public Law 89-291) authorizes programs of financial support to assist in meeting the Nation's need for adequate medical library services and facilities. The Act established grant programs for construction, resources, training programs, traineeships, post-doctoral fellowships, research projects, special scientific projects, publications, and regional medical library programs.

MEDICAL LIBRARY RESOURCE GRANTS

Medical Library Resource Grants are awarded by the Surgeon General of the Public Health Service to public and private nonprofit institutions for the purpose of expanding and improving their basic medical library or related resources. The program is administered by the PHS's National Library of Medicine through its Extramural Programs.

The 33 grants listed below have been awarded to institutions in 22 states and the District of Columbia. Although the beginning dates of these grants vary, all awards will provide funds for obligation over a 12-month period. Other awards are in process and will be announced after applicants have received notification.
